

Propane Gas

Millions of people enjoy a more comfortable life thanks to Propane Gas. And Mitchell has been a foremost supplier of this product in Connecticut and New York for decades. What are some of Propane's advantages?

Clean - Propane is clean and non-toxic.

- Both the Clean Air Act of 1990 and the National Energy Policy Act of 1992 list Propane as an approved alternative fuel.
- Propane is non-toxic and insoluble in water. Because it is released as a gas, it doesn't spill, pool, or leave a residue.

Reliable - Propane works when and where other energy sources don't.

- Almost 90 percent of all propane is produced right here in the United States. So you can always count on it.
- It doesn't matter whether you live in town or out in the rurals, whether it is for your home or your business, even if it's far from the gas main or power grid. Mitchell will make sure your Propane will be there when you need it.

Good Value - Propane can offer significant savings over the alternatives.

- Propane on average costs about half as much per Btu as electricity.
- Propane burns hotter and more evenly than many other fuels.
- Propane appliances have a shorter energy savings payback period (the time it takes for an appliance to pay for itself via energy savings).

Safe - Propane has built-in safety properties along with stringent safety regulations

- Propane won't ignite when combined with air unless the source of ignition reaches 940° F.
- Propane gas is nontoxic and produces minimal emissions.
- Propane is not harmful to soil or water.

Why is Mitchell your best source for Propane? Please call us at (800) 237-3835 or fill out our Contact Request Form for a compelling answer.
