

## Fleet Fueling

If controlling fleet fueling costs is important to you, you need The Mitchell Manner Card.

The Mitchell Manner Card is your key to the Mitchell Fuel Management System. When you issue a card to one of your drivers, it allows him to fuel his vehicle at any one of our conveniently located fueling sites. The Mitchell Fuel Management Report will account for every gallon purchased showing:

Date and Time of Purchase Location of Purchase Type of Fuel Price/Gallon Gallons Purchased Total Sale Amount Odometer Reading (if supplied) Cost/Mile Miles/Gallon Tax Breakdown Separation of Taxes Totals by Vehicle and Product

This valuable fleet maintenance tool allows you to spot unusual changes in vehicle fuel consumption and assures you that the right product is being used in each vehicle. Why pay an employee to control fuel costs with time consuming, outdated, manual accounting methods when The Mitchell Manner Card can do the work for you?
