

Oil Price Plans Available

Avoid the volatility of fuel oil prices this Winter by signing up for one of our Oil Price Protection Plans! We have expanded our plans for the 2010-11 season with one goal in mind: giving you options to control your heating costs. You can choose between the following options:

-

Pre-Buy Plan: Our Pre-Buy Plan allows you the certainty of pre-purchasing your annual supply of fuel oil at a fixed price.

-

Cap Plan: Our Cap Plan gives you the security of a price "ceiling" should oil prices rise, but allows your price to move lower if the market falls. The Cap Plan lets you budget your oil needs into twelve monthly payments.

-

Fixed Price Plan: Our Fixed Price Plan allows you to lock in your price of oil for the entire season. This rate is then built into a budget made up of twelve easy monthly payments.
